\$5.00 DONATION APPRECIATED  
REFRESHMENTS AVAILABLE

BOOKS WILL BE AVAILABLE FOR  
SALE, CASH ONLY.

The Readington Museums will host author and veterinarian, Dr. Edward Tindall DVM, for a lecture on the raw milk industry and Walker-Gordon Dairy Farm.

As an integral portion of his life, Tindall worked at the Walker-Gordon Dairy Farm in his early years before becoming a veterinarian. Based on his experience, he and Stanton Clark self-published the book “*Walker-Gordon: One of a Kind*” to preserve the history of the dairy farm. The Walker-Gordon Dairy Farm, located in Plainsboro, NJ, was in operation for over 70 years until 1971 and produced certified and unpasteurized milk. Tindall will discuss the innovations of dairy farming and the ultimate reasons for closure and likely future. He will include the extreme sanitary practices, safety records, and range of customers at the dairy farm.

Additional highlights in the Walker-Gordon Dairy Farm history, showcase the dairy’s mass milking system, the rotolactor, and its famous “Elsie The Cow” advertising campaign.

Made possible with funds from the Hunterdon County Cultural & Heritage Commission, a partner of the New Jersey Historical Commission.
